Curriculum Policy

This policy applies to all pupils in the school, including in the EYFS.

The school follows its own wide-ranging academic curriculum, tailored to the needs of its pupils. All departments keep themselves up-to-date about its requirements and developments; much of what is taught draws upon the best practice of what is happening nationally and in other schools. As part of our responsibility to keep abreast of the national agenda, our subject coordinators are committed to reviewing the government's revised National Curriculum and should we feel that content and skills are relevant and useful to our context, we will take account of them, being guided without being limited by the content.

Coordinators take account of the new elements of the curriculum and adopt and adapt these as they feel appropriate. The curriculum aims to marry together the strengths of the National Curriculum with the entrance requirements of the selective secondary schools to which pupils apply and the aims and ethos of the school. The school will take all reasonably practicable measures to fulfill the requirements of any pupil's SEND or support guidelines, including pupils with a statement or EHC plan and in line with its obligations in regard to the SEND Code of Practice.

The curriculum is balanced and broadly based, and strongly promotes the spiritual, moral, social, cultural, mental and physical development of our pupils. It prepares our pupils well for the opportunities, responsibilities and experiences of life in British Society and upholds the fundamental British Values of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs. It also includes provision for pupils' economic well-being. It enables pupils to acquire skills in speaking, reading, writing, listening and numeracy. Where a pupil has English as an additional language and in the rare event that they need specialist teaching to develop appropriate fluency, parents will be guided and supported in finding such support outside school, as well as being advised of the support the school can provide.

The school provides sessional (part/time or full time as required by parents) supervised education for pupils between age 2 – 4 years and full time supervised education for pupils of compulsory school age to 11 years. Up to the age of 5, pupils follow a curriculum that meets the learning, development and assessment requirements of the Early Years Foundation Stage (EYFS), further details of which can be found in separate EYFS documentation.

Throughout the school, the curriculum provides pupils with experiences in life skills and linguistic, mathematical, scientific, technological, human and social, physical and aesthetic and creative education, appropriate for their ages and aptitudes. At each level it provides opportunities, responsibilities and experiences, in preparation for the next stage of their education and their adult lives. The school is committed, through its curriculum and co-curricular pursuits, to helping pupils to understand how to stay safe, build positive and healthy relationships and promotes the welfare and safeguarding of children at all times.

Aims of the curriculum:

We believe that a successful curriculum should be broad, balanced and ambitious; delivered in innovative ways to provide appropriate stretch and challenge to all our pupils, exciting and engaging them and giving them ownership in their learning. We believe that exceptional results should be a by-product of the education that we offer, not the exclusive focus. Pupils are encouraged to aim high and we aim to provide them with everything they need to succeed. It is our aim to furnish each child with the appropriate skills to develop fully their academic potential, as well as developing their personal and social values in preparation for life in British society. It offers a robust understanding of safeguarding through the comprehensive PSHE, RSE and e-safety programmes.

Objectives of the curriculum:

We are committed to providing an educational environment that challenges, nurtures, excites and involves every single pupil in the school through a curriculum which

- At each level prepares pupils for the opportunities, responsibilities and experiences of the next stage of their education and lives
- Challenges the individual academically and allows them to discover their own intellectual strengths in the pursuit of academic excellence and fosters a love of learning
- Encourages independent learning and critical thinking skills and provides opportunities for pupils to express their learning and understanding in different ways
- Is balanced and broadly based and encourages pupils to explore a breadth of academic, cultural, aesthetic, creative and sporting interests
- Is responsive, providing inclusivity and diversity and reflects our responsibility to ensure our pupils are equipped to understand the integral part that world and British history plays in shaping society today and the role that our pupils have in helping to continue this path of reform.
- Is flexible enough to respond to change and incorporates innovation as appropriate
- Enables pupils to acquire skills in speaking and listening, literacy and numeracy
- Uses technology effectively in supporting teaching and learning and gives pupils opportunity to present work in personalised ways.
- Ensures pupils have an understanding of their own personal safety and that of others, including awareness of safeguarding
- Enables our pupils to work collaboratively and successfully develop the 'soft skills' needed to equip them for life.
- Encourages respect for other people, paying particular regard to the protected characteristics stated in the 2010 Equality Act (i.e. age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation).
- (Enables pupils to know themselves better and begin to understand their strengths, weaknesses and interests. Introduces pupils to a range of career options presented in an impartial and non-stereotyped manner.

To ensure that pupils develop an understanding of fundamental British Values and uphold these throughout the curriculum.

Curriculum

Our curriculum planning uses higher order thinking skills in all subjects and ensures pupils have access to enquiry based learning and development of critical thinking skills. In Forms 5 and 6, we include a well-structured Prep programme to support pupils in preparing for Senior School Examinations. Inclusion of subjects such as Philosophy for Children, General Studies, Reasoning and Latin in later school years ensure that our curriculum prepares our children with broader learning skills for the next stage in their educational career.

Foundation Stage (Age 2 – 5 yrs)

Pupils have a broad programme of study, based on the reviewed EYFS Framework (2023), which focuses on the:

- Three prime areas of learning most essential for children's readiness for future learning and healthy development; Communication and Language, Physical Development, and Personal Social and Emotional Development
- Four specific areas of learning which build on the prime areas; Literacy, Mathematics, Understanding the World and Expressive Arts and Design

Within these the EYFS setting works to ensure that:

- Children develop the characteristics of effective learning including, Playing and Exploring, Active Learning, and Creating and Thinking Critically
- There is a balance of structured adult led activities and child initiated play with opportunities for learning both indoors and outdoors. The Reception curriculum includes Music, French and Physical education.

Pre Prep, Junior Prep and Senior Prep

Pupils have a broad, balanced ambitious curriculum with plentiful opportunities for active and personalised learning, both independently and collaboratively. Pupils learn the following subjects:

- Academic - English, mathematics and science,
- Linguistic – French, Latin,
- Human and Social - history, geography and religious education
- Aesthetic and creative education - art, music, dance, drama
- Life Skills – 'Future Citizens', personal education and personal, social, health and citizenship education, Philosophy for Children, Critical thinking and study skills
- Physical – Individual and Team Sports, Dance, Yoga, Clubs
- Technological -Computing, Coding, Computational Thinking, Information Technology, digital literacy and Design and technology

Equal Opportunities:

The curriculum at Norfolk House School & Nursery is designed to ensure equal opportunities for all learners, regardless of ability, gender, ethnicity, religion or disability. As a non-selective school, we operate a SEND Policy and a policy for able, gifted and talented pupils to ensure the needs of all learners are met.

Safeguarding:

Within our curriculum, we build in opportunities for our pupils to understand safeguarding issues which may affect them and to ensure they feel safe and supported at school. More broadly, our curriculum takes account of and promotes our pupils' mental and physical health and development in order to prevent any impairments that would affect the best possible outcomes for all our pupils. The inclusion of opportunities within lessons to address and promote positive relationships, health, mental well-being and resilience is adopted by all subject leads within the school when considering adaptations to schemes of work and by practitioners in their day to day practice as part of our broad and balanced curriculum offer. Our Pastoral lead and PSHE lead oversees this.

Additionally, our PSHE curriculum affords opportunities to be responsive to arising issues, and E-safety

awareness is taught throughout the curriculum and particularly within the Computing and IT curriculum. Relationship Education and Relationship and Sex Education (RSE) is provided as appropriate for the pupils' ages and stages of development and in line with statutory guidance effective September 2020 and implemented from September 2021. The principles underpinning our PSHE curriculum development are with the aim of supporting our pupils to develop the skills they need to be happy, successful and productive members of society; to be able to respond positively to the increasing challenges they experience; to develop the knowledge and capability to take care of themselves and to know how and where to seek support if problems arise.

Central to this is our pupils' ability to believe that they can achieve goals, both academic and personal; to stick to tasks that will help them achieve those goals, even when the reward may be distant or uncertain; and to recover from knocks and challenging periods in their lives. This is complemented by development of personal attributes including kindness, respect, integrity, generosity, and honesty. Further details can be found in the Sex and Relationships Education Policy. RSE, are a mandatory part of the school curriculum from September 2021 and the school **has consulted with parents during the devising of its curriculum in these areas (15)** ensuring that this programme complements, but does not duplicate content covered in other subjects in the curriculum (eg citizenship, science, computing and PE). ([Relationships Education, Relationships and Sex Education \(RSE\) and Health Education guidance 2019](#))

Pupil Progress and Assessment:

Regular formative assessment and discussion with pupils enables our pupils to have visibility over their learning and progress and colleagues work closely with each other to ensure that learning is triangulated and moderated throughout the year.

Standardised testing carried out each year enables benchmarking of pupils' attainment and progress against national standards.

Data Collection: The purpose of collecting any data about a pupil/cohort in the school is to understand and use it to make informed and evidence based decisions about next steps and interventions that will lead to the best outcomes for those pupils and to then compare data sets to ensure these have had the desired impact, supporting in signposting what further action is needed. At Norfolk House we complete this termly; so that teachers create actions from their analysis to maximise pupil learning and outcomes for the following term; this is quality assured internally by Subject leaders and Heads of Department as well as SLT and external quality assurance is provided by our central education committee through governance.

Assessment and GDPR: Individual pupils' assessment data is part of pupils' personal information. Care should be taken with the collation, storage and analysis of data. While it is appropriate to share consolidated assessment information outside of school any individual data must be anonymised - referenced also in Assessment Policy. (19)

Pupil progress meetings held termly help to determine if pupils are reaching the required milestones in relation to their own ability and national and school indicators. Where pupils are not making adequate progress, they will be identified for close monitoring/ small group intervention or 1:1 intervention as appropriate. If it is determined that the children are still not making adequate progress they may be referred to the school's SENCo for further investigation into their needs. Where specific needs are identified and can be met with 'reasonable adjustment' by the school there will be no additional costs for support. Where it is deemed most appropriate for there to be intervention from an outside resource,

the cost for these services will be the responsibility of the parent.

In EYFS the school will assess according to the statutory Early Years Profile and the 2 Years olds progress check. Results of the Early Years Profile is provided to parents and Haringey Local Authority.

English as an Additional Language (EAL):

Please see the School's separate EAL policy available on the school website.

Further Information:

Further detailed information on the subjects taught can be found in the Parent Handbook, which is available for download from the school website, or a copy may be requested from the school office.
